

#### Reflection:

My partner suggest me I can add more details on search but I believe we need to focus more on drawing. The subtasks that would be interseting to learn moe about are pencil raw outline (2.1) and color shade (4.2). I have learned drawing when a deacde ago and I knew it is hard but fan to draw sketches of a machine and color shade on it. Also, a good outline would be a good start for drawing and good color shades will make the car looks real and full of details.
